

certifies that

## TN LOGISTICA SK

have emitted 1.5 tonne of CO2 equivalent and saved at least 17.3 tonnes of CO2  
between 01/01/2022 and 31/12/2022  
by choosing to cross the Channel with Eurotunnel Le Shuttle Freight.

Thank you for sharing our continued commitment to protect the environment,  
we are proud to be associated with your business.

**Deborah MERRENS**

Fixed Link Chief Commercial Officer

**Within its 2025 Environment Plan, Getlink has renewed its climate ambition:**

an ultimate goal of carbon neutrality by 2050 and a mid-term reduction target of - 30% by 2025.

### Actions within Eurotunnel include:

Fully electric trains

100% low carbon electricity both in UK and France

Replacement of halon gas (fire extinction gas in technical rooms and in the Shuttles) and refrigerating fluids by less carbon generating fluids

Appropriate measures to accommodate new powered vehicles: E-Vehicles, LNG, Hydrogen...

### Right to Green Award:

The unique environmentally friendly means of cross-Channel transport
